AND EXHIBITION CENTER

BOARDING PASS

**Innovation is our world.** That is why we invite you to a journey which will introduce you to coating solutions that the market has never seen before.

In the field of **cookware**, we are pleased to show you new product solutions of our PROFESSIONAL portfolio.

In the meantime **Swiss Shield** has set a new standard as migration barrier technology and is widely used in the bakeware segment. ILAG now offers this innovation in the **electrical appliances** market.

Also because of this year's optical highlights, it is worth to come to ILAG. Follow us to Iceland and experience cookware colors inspired by spectacular nature and scenery. Our new color world for bakeware was developed based famous cocktail classics.

It is worth the trip! Get started and visit our **booth H33-34 in hall 3.1** at **Canton Fair 2019** in Guangzhou. You are cordially invited.

Yours 

ILAG – Industrielack AG, H.G. Geisel & Team

INVITATION

中国进出口商品交易会  
CHINA IMPORT AND EXPORT FAIR

**Visit us:**

Guangzhou International Convention and Exhibition Center

Hall 3.1

Booth No. H33-34

GO TO ICELAND

## Cookware Color Trends 2019 – mysterious yet down-to-earth

Inspired by nature and the play of colors of Iceland's landscape, our new color palette transports the magic of the north into the customers' kitchens – expressive but never overpowering.

## **Cookware Professional – innovative solutions for the highest demands**

The new 3-layer systems not only impress with a two to three times more durable non-stick effect, but also with maximum scratch resistance. The combination of these properties is currently unique.

**Cheerful colors for  
Bakeware – sunny  
and light like a day  
at the beach**

Our vibrant cocktail colors  
exude lust for life and  
holiday mood. Be inspired  
by the lively sounds and  
infected by the bright  
color palette.

## **Swiss Shield - now available for electrical appliances**

Due to tighter regulations for food contact materials ILAG now offers our market-approved Swiss Shield technology for electrical appliances.
